AND HERPETOLOGISTS

CONTENTS—1980, Nos. 1-4

ALVARADO, RONALD H. (see Stiffler, Daniel F.)	
ANDERSON, VALENTINE T. (see Ziskowski, John J.)	
ANDERSON, JR., WILLIAM D. AND PHILLIP C. HEEMSTRA. Two new species of western Atlantic <i>Anthias</i> (Pisces: Serranidae), redescription of <i>A. asperilinguis</i> and review of <i>Holanthias martinicensis</i>	72
ARNOLD, C. R. (see Rabalais, Nancy N.)	
AYLING, A. M. Hybridization in the genus <i>Pseudolabrus</i> (Labridae)	176
BACHOP, WILLIAM E. (see Twelves, Eric L.)	
BALLINGER, ROYCE E. AND JUSTIN D. CONGDON. Food resource limitation of body growth rates in <i>Sceloporus scalaris</i> (Sauria: Iguanidae)	921
BANNON, MICHAEL P. (see Busack, Craig A.)	
BECHTEL, ELIZABETH (see Bechtel, H. Bernard)	
BECHTEL, H. BERNARD, JOHN W. NELSON AND ELIZABETH BECHTEL. Histochemical demonstration of two types of albinism in San Diego gopher snakes (<i>Pituophis melanoleucus annectens</i>) by use of dopa reaction	932
BECKVAR, NANCY (see Seale, Dianne B.)	
BEITINGER, THOMAS L. (see Pettit, Michael J.)	
BERNSTEIN, J. W. Parental care behavior in the cichlid fish <i>Cichlasoma nigrofasciatum</i>	682
BERVEN, KEITH A. (see Smith-Gill, Sandra J.)	
BIANCO, PIER GIORGIO AND TEODOR T. NALBANT. Redescription of <i>Cobitis linea</i> , with some remarks on the subgenus <i>Bicanestrinia</i> (Cypriniformes: Cobitidae)	903
BICKHAM, JOHN W., KAREN A. BJØRNDAL, MIKE W. HAIDUK AND WILLIAM E. RAINEY. The karyotype and chromosomal banding patterns of the green turtle (<i>Chelonia mydas</i>)	540
BICKLER, PHILIP E. AND KENNETH A. NAGY. Effects of parietectomy on energy expenditure in free ranging lizards	923
BILLS, FREDERICK T. AND CARL E. BOND. A new subspecies of tui chub (Pisces: Cyprinidae) from Cowhead Lake, California	320
BJØRNDAL, KAREN A. (see Bickham, John W.)	
BJØRNDAL, KAREN A. Demography of the breeding population of the green turtle, <i>Chelonia mydas</i> , at Tortuguero, Costa Rica	525
BLACK, D. ANN (see Howell, W. Mike)	
BOND, CARL E. (see Bills, Frederick T.)	
BORTONE, STEPHEN A. (see Howell, W. Mike)	
BOUCHEZ, NICOLE (see Ghiot, Françoise)	
BRADSHAW, S. D., C. GANS AND H. SAINT GIRONS. Behavioral thermoregulation in a pygopodid lizard, <i>Lialis burtonis</i>	738
BROCKMAN, TODD (see Ferguson, Gary W.)	
BRUCE, ROBIN W. Protogynous hermaphroditism in two marine angelfishes	353
BRUCE, ROBIN W. On the occurrence of very small terminal phase parrotfishes	887
BURR, BROOKS M. AND MARK S. ELLINGER. Distinctive egg morphology and its relationship to development in the percid fish <i>Etheostoma proeliare</i>	556
BUSACK, CRAIG A., GARY H. THORGAARD, MICHAEL P. BANNON AND G. A. E. GALL. An electrophoretic, karyotypic and meristic characterization of the Eagle Lake trout, <i>Salmo gairdneri aquilarum</i>	418
BUTH, DONALD G. Evolutionary genetics and systematic relationships in the catostomid genus <i>Hypentelium</i>	280
CANE, JAMES H. (see Miyamoto, Michael M.)	
CARR, ARCHIE AND ANNE BARKAU MEYLAN. Evidence of passive migration of green turtle hatchlings in sargassum	366
CASTERLIN, MARTHA E. AND WILLIAM W. REYNOLDS. Diel activity of the bluespotted sunfish <i>Enneacanthus gloriosus</i>	344
CASTLE, P. H. J. Identification of <i>Congrogadus marginatus</i> from Hawaii with the eel genus <i>Ariosoma</i> (Pisces: Congridae)	159
CATAUDELLA, STEFANO (see Sola, Luciana)	
CAVENDER, TED M. (see LeGrande, William H.)	
CEI, JOSÉ M. A Pleistocene record of <i>Bufo spinulosus</i> from Peru	935
COKENDOLPHER, JAMES C. Hybridization experiments with the genus <i>Cyprinodon</i> (Teleostei: Cyprinodontidae)	173

COLGAN, PATRICK AND NIGEL COSTELOE. Plasticity of burying behavior by the banded killifish, <i>Fundulus diaphanus</i>	349
COLLINS, JAMES P., JEFFREY B. MITTON AND BENJAMIN A. PIERCE. <i>Ambystoma tigrinum</i> : A multi-species conglomerate?	938
CONGDON, JUSTIN D. (see Ballinger, Royce E.)	
CONSTANTZ, GEORGE D. Energetics of viviparity in the Gila topminnow (Pisces: Poeciliidae) ..	876
COOPER, JOHN E. Egg, larval and juvenile development of longnose dace, <i>Rhinichthys cataractae</i> , and river chub, <i>Nocomis micropogon</i> , with notes on their hybridization	469
COSTELOE, NIGEL (see Colgan, Patrick)	
CUPP, JR., PAUL V. Territoriality in the green salamander, <i>Aneides aeneus</i>	463
DAS, C. C. (see Tripathy, N. K.)	
DAVIES, MARGARET (see Martin, A. A.)	
DAVIS, STEVEN M. American shad movement, weight loss and length frequencies before and after spawning in the St. Johns River, Florida	889
DEAN, JOHN M. (see Talbert, Jr., O. Rhett)	
DEITZ, DAVID C. AND TOMMY C. HINES. Alligator nesting in north-central Florida	249
DEL PINO, EUGENIA M. Morphology of the pouch and incubatory integument in marsupial frogs (Hylidae)	10
DI MICHELE, LEONARD (see Taylor, Malcolm H.)	
DIMMITT, MARK A. AND RODOLFO RUBAL. Exploitation of food resources by spadefoot toads (<i>Scaphiopus</i>)	854
DIXON, JAMES R. (see Gallagher, Jr. Daniel Stephen)	
DUGAN, BEVERLY (see Rand, A. Stanley)	
DUNSON, WILLIAM A. The relation of sodium and water balance to survival in sea water of estuarine and freshwater races of the snakes <i>Nerodia fasciata</i> , <i>N. sipedon</i> and <i>N. valida</i>	268
EBELING, ALFRED W. (see Parin, Nikolay V.)	
ELLENDER, RUDOLPH D. (see Gregory, Paula E.)	
ELLINGER, MARK S. (see Burr, Brooks M.)	
ELLIS, TAMIR M. <i>Caiman crocodilus</i> : An established exotic in south Florida	152
FELLEY, JAMES. Analysis of morphology and asymmetry in bluegill sunfish (<i>Lepomis macrochirus</i>) in the southeastern United States	18
FERGUSON, GARY W. (see Jones, Steven M.)	
FERGUSON, GARY W. AND TODD BROCKMAN. Geographic differences of growth rate of <i>Sceloporus</i> lizards (Sauria: Iguanidae)	259
FISCHER, ERIC A. Speciation in the hamlets (<i>Hypoplectrus</i> : Serranidae)—a continuing enigma	649
FRENCH, DONALD P. Cleaning behavior in sunfish hybrids under laboratory conditions	869
FUIMAN, LEE A. AND JOHN R. TROJNAR. Factors affecting egg diameter of white suckers (<i>Catostomus commersoni</i>)	699
GALL, G. A. E. (see Busack, Craig A.)	
GALLAGHER, JR., DANIEL STEPHEN AND JAMES R. DIXON. A new lizard (Sauria: Teiidae: <i>Kentropyx</i>) from Brazil	616
GANS, C. (see Bradshaw, S. D.)	
GARTSIDE, DONALD F. Analysis of a hybrid zone between chorus frogs of the <i>Pseudacris nigrita</i> complex in the southern United States	56
GATTEN, JR., ROBERT E. (see Schuett, Gordon W.)	
GAUDIN, ANTHONY J. (see Zalusky, Steven B.)	
GENTILI, GIUSEPPE (see Sola, Luciana)	
GERHARDT, H. CARL, SHELDON I. GUTTMAN AND ALVAN A. KARLIN. Natural hybrids between <i>Hyla cinerea</i> and <i>Hyla gratiosa</i> : Morphology, vocalization and electrophoretic analysis	577
GHIOT, FRANCOISE AND NICOLE BOUCHEZ. The central rod of the barbels of a South American catfish, <i>Pimelodus clarias</i>	908
GLAZIER, JEFFREY R. AND CHARLES A. TABER. Reproductive biology and age and growth of the Ozark minnow, <i>Dionda nubil</i>	547
GOLDBERG, STEPHEN R. Seasonal spawning cycle of the longspine combfish, <i>Zaniolepis latipinnis</i> , with notes on spawning of the shortspine combfish, <i>Zaniolepis frenata</i> (Zaniolepididae)	882
GORLICK, DENNIS L. Ingestion of host fish surface mucus by the Hawaiian cleaning wrasse, <i>Labroides phthirophagus</i> (Labridae), and its effect on host species preference	863
GORMAN, GEORGE C. (see Wyles, Jeff S.)	
GRAVELLE, KAREN AND CAROL A. SIMON. Field observations on the use of the tongue-Jacobson's organ system in two iguanid lizards, <i>Sceloporus jarrovi</i> and <i>Anolis trinitatis</i>	356

GREENFIELD, DAVID W. AND LOREN P. WOODS. Review of the deep-bodied species of <i>Chromis</i> (Pisces: Pomacentridae) from the eastern Pacific, with descriptions of three new species	626
GREGORY, PAULA E., PATRICIA N. HOWARD-PEEBLES, RUDOLPH D. ELLENDER AND BILLY J. MARTIN. C-banding of chromosomes from three established marine fish cell lines	545
GROBECKER, DAVID B. (see Pietsch, Theodore W.)	
GROSS, MART R. AND WILLIAM A. NOWELL. The reproductive biology of rock bass, <i>Ambloplites rupestris</i> (Centrarchidae), in Lake Opinicon, Ontario	482
GUNNING, GERALD E. (see Heins, David C.)	
GUTTMAN, SHELDON I. (see Gerhardt, H. Carl)	
HAIDUK, MIKE W. (see Bickham, John W.)	
HARRIS, REID N. The consequences of within-year timing of breeding in <i>Ambystoma maculatum</i>	719
HEATH, MARTHA E. AND SAMUEL M. MCGINNIS. Body temperature and heat transfer in the green sea turtle, <i>Chelonia mydas</i>	767
HEBRARD, JAMES J. (see Mushinsky, Henry R.)	
HEEMSTRA, PHILIP C. (see Anderson, Jr., William D.)	
HEINS, DAVID C., GERALD E. GUNNING AND JAMES D. WILLIAMS. Reproduction and population structure of an undescribed species of <i>Notropis</i> (Pisces: Cyprinidae) from the Mobile Bay drainage, Alabama	822
HERREID, C. F. (see Smatresk, Neal J.)	
HERTZ, PAUL E. Responses to dehydration in <i>Anolis</i> lizards sampled along altitudinal transects	440
HILLMAN, STANLEY S. Physiological correlates of differential dehydration tolerance in anuran amphibians	125
HINES, TOMMY C. (see Deitz, David C.)	
HOCUTT, CHARLES H. (see Melisky, Edward I.)	
HOOGMOED, MARINUS S. (see Petret, Jean-Luc)	
HOWARD-PEEBLES, PATRICIA N. (see Gregory, Paula E.)	
HOWELL, W. MIKE, D. ANN BLACK AND STEPHEN A. BORTONE. Abnormal expression of secondary sex characters in a population of mosquitofish, <i>Gambusia affinis holbrooki</i> : Evidence for environmentally-induced masculinization	676
JAEGER, ROBERT G. Microhabitats of a terrestrial forest salamander	265
JACKSON, JAMES F. AND DAVID L. MARTIN. Caudal luring in the dusky pygmy rattlesnake, <i>Sistrurus miliarius barbouri</i>	926
JACOB, JAMES S. AND CHARLES W. PAINTER. Overwinter thermal ecology of <i>Crotalus viridis</i> in the north-central plains of New Mexico	799
JOLLIE, MALCOLM. Development of head and pectoral girdle skeleton and scales in <i>Acipenser</i>	226
JONES, G. P. Growth and reproduction in the protogynous hermaphrodite <i>Pseudolabrus celidotus</i> (Pisces: Labridae) in New Zealand	660
JONES, STEVEN M. AND GARY W. FERGUSON. The effect of paint marking on mortality in a Texas population of <i>Sceloporus undulatus</i>	850
JOSWIAK, GERARD R., WAYNE C. STARNES AND WILLIAM S. MOORE. Karyotypes of three species of the genus <i>Phoxinus</i> (Pisces: Cyprinidae)	913
KARLIN, ALVAN A. (see Gerhardt, H. Carl)	
KARRER, CHRISTINE AND DAVID G. SMITH. A new genus and species of congrid eel from the Indo-West Pacific	642
KERSTITCH, ALEX N. (see McCourt, Richard M.)	
KING, DENNIS. The thermal biology of free-living sand goannas (<i>Varanus gouldii</i>) in southern Australia	755
KINGSTON, DOLORES IRENE. Eye-color changes during aggressive displays in the goodeid fishes	169
KLIMLEY, A. PETER. Observations of courtship and copulation in the nurse shark, <i>Ginglymostoma cirratum</i>	878
KLOTH, THOMAS C. Observations on the spawning behavior of captive Florida pompano, <i>Trachinotus carolinus</i>	884
KOMADA, NORITOMO. Incidence of gross malformations and vertebral anomalies of natural and hatchery <i>Plecoglossus altivelis</i>	29
KURAMOTO, MITSURU. Mating calls of treefrogs (genus <i>Hyla</i>) in the Far East, with description of a new species from Korea	100
KUSHLAN, JAMES A. Population fluctuations of Everglades fishes	870

KUSHLAN, JAMES A. AND MARILYN S. KUSHLAN. Everglades alligator nests: Nesting sites for marsh reptiles	930
KUSHLAN, MARILYN S. (see Kushlan, James A.)	
LAALE, HANS WILLER. The perivitelline space and egg envelopes of bony fishes: A review	210
LANE, E. DAVID. Additions to the description of <i>Hopunnis pacifica</i> (Pisces: Muraenesocidae) ..	901
LAUDER, JR., GEORGE V. The role of the hyoid apparatus in the feeding mechanism of the coelacanth <i>Latimeria chalumnae</i>	1
LAVENBERG, ROBERT J. (see Pietsch, Theodore W.)	
LAZELL, JR., JAMES D. New England waters: Critical habitat for marine turtles	290
LEE, JULIAN C. Variation and systematics of the <i>Anolis sericeus</i> complex (Sauria: Iguanidae) ..	310
LEGRANDE, WILLIAM H. AND TED M. CAVENDER. The chromosome complement of the stonecat madtom, <i>Noturus flavus</i> (Siluriformes: Ictaluridae), with evidence for the existence of a possible chromosomal race	341
LEHMAN, GRACE C. (see Richards, Christina M.)	
LEIBY, MARK M. AND RALPH W. YERGER. The genus <i>Bascanichthys</i> (Pisces: Ophichthidae) in the Gulf of Mexico	402

INDEX

COPEIA, 1980, Nos. 1-4

NEW NAMES

Allotoca maculata 408-417
Anthias menezesi 72-87
Anthias woodsi 72-87
Blachea xenobranchialis 642-648
Chromis alta 626-641
Chromis limbaughi 626-641
Chromis meridiana 626-641
Congrogadoides amplimaculatus 396-402

Eleutheroactylus quinquagesimus 392-396
Gila bicolor vaccaceps 320-322
Halimuraena lepopareia 396-402
Hyla suweonensis 100-108
Kentropyx vanzoi 616-620
Poromitra crassa 87-93
Ranidella bilingua 93-99

NEW AND ESTABLISHED NAMES

Ablepharus grayanus 154
Abudefduf saxatilis 213
Acanthemblemaria crockeri 137-141
macrospilus 139-140
Acanthodactylus erythrurus 456
Acantholiparis opercularis 687-699
Acanthophis antarcticus 452-458, 927
Acanthopsis linea 903
Acanthurus achilles 176
achilles × *Acanthurus glaucopareius* 176
glaucopareius 176
tristegus 864-867
Acetrophryne longidens 906-908
Acerina cernua 213
vulgaris 213
Acheilognathus lanceolatum 217, 220

SUBJECT INDEX

ABNORMALITIES (see ANOMALIES).

ACTIVITY, *Enneacanthus gloriosus* (diel activity) 344-345; *Bufo punctatus* (body temperature and activity) 362-363; *Vipera berus* (male reproductive cycle in relation to annual activity periods) 729-737.

AGE, *Dionda nubilata* (age and growth) 547-550.

ALBINISM, *Pituophis melanoleucus annectens* (histochemical demonstration of two types of albinism) 932-935.

ANATOMY, *Latimeria chalumnae* (role of hyoid apparatus in feeding mechanism) 1-9; marsupial frogs (Hylidae) (morphology of pouch and incubatory integument) 10-17.

ANOMALIES, *Plecoglossus altivelis* (incidence of gross malformation and vertebral anomalies in natural and hatchery-raised individuals) 29-35; *Pseudopleuronectes americanus* (bent fin-ray condition) 895-899.

BEHAVIOR, *Apareidon (piracicabae, ibitiensis)* (feeding and spawning) 166-169; various goodeid species (eye-color changes during aggressive displays) 169-171; *Fundulus diaphanus* (burying behavior plasticity) 349-351; Australian elapid snakes (7 spp.) (behavioral thermoregulation) 452-458; *Aetobatis narinari*, *Myliobatis californica* (courtship and mating-related behavior) 553-556; *Cichlasoma nigrofasciatum* (parental care) 682-686; *Lialis burtonis* (behavioral thermoregulation) 738-743; *Nerodia (rhombifera, cyclopion, fasciata, erythrogaster)*, *Regina grahamii* (role of temperature on behavioral associations) 744-754; *Trachinotus carolinus* (spawning) 884-886; *Urolophus concentricus* (mating behavior) 900-901; *Sistrurus miliaris barbouri* (caudal luring) 926-927; *Hyla ebraccata* (reproductive behavior) 928-930.

BIOLOGY, *Dionda nubilata* (reproductive biology, age and growth) 547-550.

BREEDING, *Ambystoma maculatum* (consequences of within-year timing) 719-722.

BROODS, Lake Malawi Cichlidae (mixed species broods) 874-875.

CALLS, *Ranidella bilinguala* (audiospectrograms) 96; *Hyla* (4 far eastern spp.) (audiospectrograms) 100-108; *Hyla cinerea* × *Hyla gratiosa* 577-584.

CHROMOSOMES, *Hyla suweonensis* 103; *Noturus flavus* (complement; chromosomal race in Tennessee River drainage) 341-344; *Salmo gairdneri aquilarum* (karyotypic, electrophoretic and meristic characterization) 418-424; *Chelonia mydas* (karyotype and chromosomal banding patterns) 540-543; *Cynoscion arenarius* (technique for fish karyotype analysis using scale epithelium) 543-545; *Bairdiella chrysoura*, *Archosargus probatocephalus*, *Haemulon sciurus* (C-banding of chromosomes) 545-547; *Anguilla (anguilla, rostrata, australis)* (cytotaxonomical interrelationships and sex chromosomes) 911-913; *Phoxinus (cumberlandensis, neogaeus, oreas)* (karyotypes) 913-916; *Mystus (vittatus, cavasius)*, *Plotosus canius* 916-918.

CLEANING, *Labroides phthirophagus* (ingestion of host surface mucus and its effect on host species preference) 863-868; *Lepomis cyanellus* × *Lepomis macrochirus* (under laboratory conditions) 869-870.

COLOR PHASES, *Scarus psittacus* (very small terminal phase individuals) 887-889.

COURTSHIP, *Ginglymostoma cirratum* 878-882.

DEHYDRATION, *Xenopus laevis*, *Rana (muscosa, pipiens)*, *Bufo (boreas, cognatus)*, *Scaphiopus couchii* (physiological correlates of differential dehydration tolerances) 125-129; squamate reptiles (procedural and anatomical considerations for determination) 425-439; *Anolis (roquet, cybotes, gundlachi)* (responses to dehydration along altitudinal transects) 440-446.

DEMOGRAPHY, *Chelonia mydas* (breeding population at Tortuguero, Costa Rica) 525-530; *Desmognathus (ochrophaeus, monticola)* 806-821; *Notropis* new species 822-830; *Anolis (sagrei, distichus, angusticeps, carolinensis)* (relation to injury rates) 839-850.

DESICCATION, *Chamaeleo (jacksoni, hohneli)* (desiccation tolerance and thermal maxima) 363-366.

DEVELOPMENT, genus *Acipenser* (head, pectoral girdle skeleton and scales) 226-249; *Nocomis micropogon*, *Rhinichthys cataractae* (plus hybrids) (eggs, larvae and juveniles) 469-478; *Bufo boreas* (rapidity of metamorphosis) 537-540; *Etheostoma proeliare* (development in relation to egg morphology) 556-559; *Prionotus scitulus* (changes in swimbladder size) 611-615.

DISEASE, *Pseudopleuronectes americanus* (bent fin-ray condition) 895-899.

DISTRIBUTION, *Aghistrodon himalayensis* (Pakistan) 154-155; *Anolis marmoratus* (French Guiana) 371-373; notacanthiform fishes off Chile 892-895.

ECOLOGY, *Plethodon cinereus* (microhabitats) 265-268; *Nerodia (rhombifera, cyclopion, fasciata, erythrogaster)*, *Regina grahamii* (role of temperature in ecological associations) 744-754; *Crotalus viridis* (overwintering thermal ecology) 799-805; *Desmognathus (ochrophaeus, monticola)* (life histories and demography) 806-821; *Notropis* new species 822-830; *Cacophis (squamosus, harrietae, kreftii)* (comparative ecology) 831-838; *Anolis (sagrei, distichus, angusticeps, carolinensis)* (relation to injury rates) 839-850.

- EGGS**, *Fundulus heteroclitus* (ovarian changes in lunar spawning cycle) 118–125; *Zu cristatus* 165–166; perivitelline space and egg envelopes in bony fishes 210–226; *Rhinichthys cataractae*, *Nocomis micropogon* (plus hybrids) (egg development) 469–478; *Sceloporus undulatus* (water relations of parchment-shelled eggs) 478–482; *Iguana iguana* (egg mortality in nest) 531–534; *Chrysemys picta* (second clutch laying) 534–536; *Etheostoma proelare* (egg morphology in relation to development) 556–559; *Catostomus commersoni* (factors affecting egg diameter) 699–704; *Lutjanus campechanus* (description of eggs) 704–708.
- ELECTROPHORESIS**, *Anolis* (41 spp.) (albumin immunological and nei electrophoretic distance correlation) 66–71; *Hyla* (*japonica*, *sauvonenensis*) 104; genus *Hypentelium* (isozyme variability) 280–290; *Salmo gairdneri aquilarum* 418–424; *Hyla cinerea* × *Hyla gratiosa* 577–584; *Campostoma anomalum pullum* × *Campostoma oligolepis* 584–594; *Ambystoma* (*tigrinum mavortium*, *tigrinum nebulosum*) (allozyme variation patterns) 594–605; *Scaphiopus* (5 spp.) (genetic relationships) 605–610.
- EMBRYOLOGY**, *Notothenia coriiceps neglecta* (giant nuclei in yolk sac syncytium) 909–911.
- EVOLUTION**, family Teiidae (subfamily Gymnophthalminae) (evolutionary history of South American microteiid lizards) 36–56; genus *Nectophrynoides* (evolution of reproductive modes) 193–209; genus *Hypentelium* 280–290.
- EXOTICS**, *Caiman crocodilus* (established in south Florida) 152–154.
- EYES**, various species of Goodeidae (eye-color changes during aggressive display) 169–171.
- FEEDING**, *Apareiodon* (*piracicabae*, *ibitiensis*) 166–169; *Hyla crucifer*, *Rana* (*atesbeiana*, *sylvatica*), *Bufo* (*americanus*, *woodhousei fowleri*) (comparative ability to ingest suspended blue-green algae) 495–503; *Chrysemys s. scripta* (effects of food availability and water temperature on feeding ecology) 503–514.
- FERTILIZATION**, *Chitonotus pugelensis* (internal fertilization) 162–165; *Rana sylvatica* (in vitro) 723–728.
- FOOD**, *Trematomus bernacchii* (observations) 171–173; *Chrysemys s. scripta* (effects of food availability and water temperature on feeding ecology) 503–514; *Oligocottus snyderi*, *Climocottus analis*, *Artemis lateralis* (comparative food habits in rocky intertidal habitat) 515–525; *Scaphiopus* (*couchi*, *multiplicatus*) (exploitation of food resources) 854–862; *Labroides phthirophagus* (ingestion of host surface mucus) 863–868; *Sceloporus scalaris* (food resource limitation of body growth) 921–923.
- FOSSILS**, *Syllomus aegyptiacus* (Miocene sea turtle) 621–625; *Acentrophryne longidens* (recent species identified from late Miocene deposits) 906–908; *Bufo spinulosus* (Pleistocene record from Peru) 935–936.
- FUNCTION**, *Latimeria chalumnae* (role of hyoid apparatus in feeding mechanism) 1–9; early fishes (function of caudal fin) 559–562.
- GENETICS**, genus *Hypentelium* 280–290.
- GEOGRAPHICAL LOCALITIES**
 Alabama, *Notropis* new species 822–830.
 Antarctica, *Trematomus bernacchii* (Palmer Peninsula) 171–173; *Notothenia coriiceps neglecta* 909–911.
 Arizona, *Poeciliopsis occidentalis* 876–878.
 Atlantic Ocean (western), *Anthias* (*nicholsi*, *menezesi*, *tenuis*, *woodsi*, *asperlinguis*), *Holanthias martinicensis* 72–87.
 Australia, *Ranidella bilingua* 93–99; elapid snakes (7 spp.) 452–458; *Lialis burtomis* 738–743; *Varanus gouldii* 755–767; *Cyclorana platycephalus* 787–799; *Cacophis* (*squamulosus*, *harriettae*, *krefftii*) 831–838.
 Bahamas, *Anolis* (*sagrei*, *distichus*, *angusticeps*, *carolinensis*) 839–850.
 Borneo, *Bufo* (2 spp.), *Rana* (7 spp.), *Rhacophorus* (3 spp.) 446–451.
 Brazil, *Kentrophys vanzoi* 616–620.
 California, *Gila bicolor vaccaiceps* 320–322; *Bufo punctatus* 362–363; *Salmo gairdneri aquilarum* 418–424; *Oligocottus snyderi*, *Climocottus analis*, *Artemis lateralis* 515–525; *Zaniolepis* (*latipinnis*, *frenata*) 882–884; *Acentrophryne longidens* (fossil) 906–908.
 Chile, notacanthiform fishes 892–895.
 Colorado, *Ambystoma tigrinum* (subspecies *mavortium* and *nebulosum*) 594–605.
 Costa Rica, *Chelonia mydas* 525–530.
 Florida, *Caiman crocodilus* 152–154; *Alligator mississippiensis* 249–258; *Nerodia* (*fasciata*, *sipedon*, *valida*) 268–280; *Prionotus scitulus* 611–615; *Alosa sapidissima* 889–892; *Anolis carolinensis*, *Kinosternon baurii*, *Chrysemys nelsoni*, *Alligator mississippiensis* 930–932; *Gambusia affinis holbrooki* 676–681; *Caretta caretta* 773–780.
 French Guiana, *Anolis marmoratus* 371–373.
 Georgia, *Hyla cinerea* × *Hyla gratiosa* 577–584.
 Illinois, *Campostoma anomalum pullum* × *Campostoma oligolepis* 584–594.
 Indo-West Pacific region, *Blachea xenobranchialis* 642–648.
 Japan, *Plecoglossus altivelis* 29–35; *Hyla* (4 spp.) 100–108.
 Kentucky, *Aneides aeneus* 463–468.
 Kenya, treefrogs (family Hyperoliidae) 155.
 Korea, *Hyla* (4 spp.) 100–108.
 Louisiana, *Pseudacris nigrita* 56–66; *Nerodia* (*rhombifera*, *cyclopion*, *fasciata*, *erythrogaster*), *Regina grahamii* 744–754.
 Massachusetts, *Acipenser brevirostrum* 114–117.
 Mexico, *Acanthemblemaria crockeri* 137–141; *Allotoca* (*maculata*, *dugesii*) 408–417; *Chelonia mydas* 767–773; *Urolophus concentricus* (Gulf of California) 900–901.

- Mississippi, *Pseudacris nigrita* 56-66.
 Missouri, *Cryptobranchus alleganiensis bishopi* 536-537.
 New England, marine turtles 290-295.
 New Jersey, *Rana catesbeiana* 108-114; *Pseudopleuronectes americanus* 895-899.
 New Mexico, *Crotalus viridis* 799-805.
 New York, *Pseudopleuronectes americanus* 895-899.
 North Carolina, *Ambystoma maculatum* 719-722; *Desmognathus ochrophaeus, monticola* 806-821.
 Ontario, *Ambloplites rupestris* 482-494.
 Oregon, family Liparidae (13 spp.) 687-699.
 Pacific Ocean (western), *Poromitra crassiceps* 87-93.
 Pakistan, *Aghistrodon himalayanus* 154-155.
 Panama, *Iguana iguana* 531-534.
 Pennsylvania, *Enneacanthus gloriosus* 344-345; *Fundulus diaphanus* 346-349.
 Peru, *Bufo spinulosus* (Pleistocene fossil) 935-936.
 Seychelles, *Scarus psittacus* 887-889.
 South Carolina, *Menidia menidia* 886-887.
 Sweden, *Vipera berus* 729-737.
 Taiwan, *Hyla* (4 spp.) 100-108.
 Texas, *Sceloporus undulatus* 850-854.
 Virginia, *Plethodon cinereus* 265-268.
- GROWTH**, *Rana pipiens* (photoperiodic stimulation of growth in post-metamorphic individuals) 147-149; genus *Sceloporus* (geographic differences in growth rate) 259-264; *Dionda nubila* (age and growth) 547-550; *Pseudolabrus celidotus* 660-675; family Liparidae (13 spp.) (off Oregon) 687-699; *Sceloporus scalaris* (food resource limitation of body growth) 921-923.
- HABITATS**, *Plethodon cinereus* (microhabitats) 265-268; *Dermochelys coriacea*, *Lepidochelys kempi*, *Chelonia mydas*, *Caretta caretta*, *Eretmochelys imbricata* (critical habitat in New England) 290-295.
- HATCHING**, *Crocodylus porosus* (hatching and creche formation) 359-362.
- HERMAPHRODITISM**, *Geniathanthus semifasciatus*, *Centropyge interruptus* (protogynous) 353-355.
- HISTOLOGY**, *Pimelodus clarias* (central rod of barbels) 908-909; *Notothenia coriiceps neglecta* (giant nuclei in yolk sac syncytium) 909-911; *Pituophis melanoleucus annectens* (histochemical demonstration of two types of albinism) 932-935.
- HOME RANGE**, *Sceloporus jarrovi* (spacing in juvenile individuals) 141-146.
- HORMONES**, *Rana sylvatica* (use of gonadotropin-releasing hormone to induce spermatation) 723-728.
- HYBRIDIZATION**, *Pseudacris nigrita* (analysis of a hybrid zone in southern United States) 56-66; genus *Cyprinodon* (experimental) 173-176; genus *Pseudolabrus* 176-180; *Nocomis micropogon* × *Rhinichthys cataractae* 469-478; *Hyla cinerea* × *Hyla gratiosa* 577-584; *Campostoma anomalum pullum* × *Campostoma oligolepis* (introgression) 584-594; *Lepomis cyanellus* × *Lepomis macrochirus* 869-870.
- IDENTIFICATION**, treefrogs (family Hyperoliidae) (from Kenya) 155.
- INJURY**, *Anolis* (*sagrei*, *distichus*, *angusticeps*, *carolinensis*) (ecological and demographic correlates of injury rates) 839-850.
- KARYOLOGY** (see CHROMOSOMES).
KARYOTYPE (see CHROMOSOMES).
- KIDNEYS**, *Dicamptodon ensatus*, *Ascapus truei* (renal regulation of electrolytes) 918-921.
- LARVAE**, *Chitonotus pugetensis* (descriptive notes) 162-165; *Rhinichthys cataractae*, *Nocomis micropogon* (plus hybrids) (development) 469-478; *Lutjanus campechanus* (description of larvae) 704-708.
- LENGTH**, *Alosa sapidissima* (length frequencies before and after spawning) 889-892.
- LIFE HISTORIES**, *Desmognathus ochrophaeus, monticola* 806-821; *Notropis* new species 822-830.
- MARKING**, *Sceloporus undulatus* (effect of paint marking on mortality) 850-854.
- MATING**, *Urolophus concentricus* 900-901.
- MERISTICS**, *Salmo gairdneri* (comparison of four stocks) 160-162.
- METABOLISM**, *Xiphophorus helleri* (group metabolism under controlled oxygen conditions) 562-564; *Cyclorana platycephalus* (energy metabolism of dormant water-holding frogs) 787-799.
- METAMORPHOSIS**, *Bufo boreas* (rapidity of metamorphosis) 537-540.
- MIGRATION**, *Chelonia mydas* (evidence of passive migration of hatchlings in sargassum) 366-368.
- MORPHOLOGY**, *Hyla cinerea* × *Hyla gratiosa* 577-584; *Prionotus scitulus* (sexual and developmental changes in swimbladder size) 611-615; marsupial frogs (Hylidae) (morphology of pouch and incubatory integument) 10-17; *Lepomis macrochirus* (morphology and asymmetry in southeastern United States) 18-29.
- MORTALITY**, *Sceloporus undulatus* (effect of paint marking) 850-854; *Iguana iguana* (egg mortality in nest) 531-534.
- MOVEMENT**, *Cryptobranchus alleganiensis bishopi* (return of captive individuals to site of capture) 536-537; *Alosa sapidissima* (movement before and after spawning) 889-892.
- NAVIGATION**, *Cryptobranchus alleganiensis bishopi* (return of captive individuals to site of capture) 536-537.
- NESTING**, *Alligator mississippiensis* (north-central Florida) 249-259; *Caretta caretta* (activity) 709-718; *Anolis carolinensis*, *Kinosternon baurii*, *Chrysemys nelsoni* (in Alligator nests) 930-932.

- NITROGEN EXCRETION**, *Bufo* (2 spp.), *Rana* (7 spp.), *Rhacophorus* (3 spp.) (all from Borneo) 446-451.
- ORGANS**, *Sceloporus jarrovi*, *Anolis trinitatis* (field observations on use of tongue-Jacobson's organ system) 356-359.
- ORIENTATION**, *Uta stansburiana*, *Sceloporus undulatus* (to sun; hourly and monthly variation) 458-462.
- OSMOTIC EQUILIBRIUM**, *Nerodia (fasciata, sipedon, valida)* (relation to sodium and water balance to survival in estuarine and freshwater races) 268-280; *Dicamptodon ensatus*, *Ascaplus truei* (renal regulation of electrolytes) 918-921.
- OSTEOLOGY**, genus *Acipenser* (development of cranial and pectoral girdle skeleton) 226-249; genus *Uma* (cranial) 296-310.
- OVARIES**, *Fundulus heteroclitus* (ovarian changes during lunar spawning cycle) 118-125.
- OXYGEN CONDITIONS**, *Xiphophorus helleri* (group metabolism under controlled oxygen conditions) 562-564.
- OXYGEN CONSUMPTION**, *Plethodon (jordani, glutinosus, yonahlossee)* (oxygen consumption during rest, activity and recovery) 781-787.
- PALEONTOLOGY**, *Syllomus aegyptiacus* (Miocene sea turtle) 621-625; *Acentrophryne longidens* (recent species identified from late Miocene) 906-908; *Bufo spinulosus* (Pleistocene record from Peru) 935-936.
- PARENTAL CARE**, *Antennarius caudimaculatus* (alterative reproductive mode in anglerfish) 551-553; *Cichlasoma nigrofasciatum* 682-686.
- PHOTOPERIODICITY**, *Rana pipiens* (stimulation of growth in postmetamorphic individuals) 147-149.
- PHYSIOLOGY**, *Xenopus laevis*, *Rana (muscosa, pipiens)*, *Bufo (boreas, cognatus)*, *Scaphiopus couchii* (physiological correlates of differential dehydration tolerance) 125-129; *Chelonia mydas* (body temperature and heat transfer) 767-773; *Plethodon (jordani, glutinosus, yonahlossee)* (oxygen consumption during respiration and recovery) 781-787; *Cyclorana platycephalus* (energy metabolism of dormant waterholding frogs) 787-799; *Crotalus viridis* (overwintering thermal ecology) 799-805; *Poeciliopsis occidentalis* (energetics of viviparity) 876-878; *Sceloporus occidentalis* (effects of parietectomy on energy expenditure) 923-925.
- POLYCHROMATISM**, *Acanthemblemaria crockeri* (in Gulf of California) 137-141.
- POPULATIONS**, Everglades fishes (fluctuations) 870-874; Lake Malawi Cichlidae (mixed species broods) 874-875.
- REPRODUCTION**, *Rana catesbeiana* (behavior) 108-114; *Acipenser brevirostrum* (in Connecticut River drainage, Massachusetts) 114-117; *Trematomus bernacchii* (observations) 171-173; *Nectophrynoides malcolmi* (biology and evolution of reproductive modes in genus *Nectophrynoides*) 193-209; *Ambloplites rupestris* (reproductive biology) 482-494; *Chrysemys picta* (second-clutch egg laying) 534-536; *Dionda nubilata* (reproductive biology) 547-550; *Antennarius caudimaculatus* (parental care as an alternative reproductive mode) 551-553; *Aetobatis narinari*, *Myliobatis californica* (courtship and mating-related behavior) 553-556; *Pseudolabrus celidotus* 660-675; family Liparidae (13 spp.) (off Oregon) 687-699; *Ambystoma maculatum* (consequences of within-year timing) 719-722; *Rana sylvatica* (potential using gonadotropin-releasing hormone) 723-728; *Vipera berus* (male reproductive cycle in relation to annual activity periods) 729-737; *Notropis* new species 822-830; *Poeciliopsis occidentalis* (energetics of viviparity) 876-878; *Ginglymostoma cirratum* (courtship and copulation) 878-882; *Zaniolepis (latipinnis, frenata)* (seasonal spawning cycle) 882-884; *Trachinotus carolinus* (spawning behavior) 884-886; *Menidia menidia* (spawning) 886-887; *Urolophus concentricus* 900-901; *Hyla ebraccata* (reproductive behavior) 928-930; *Anolis carolinensis*, *Kinosternon baurii*, *Chrysemys nelsoni* (nesting sites in alligator nests) 930-932.
- SCALES**, genus *Acipenser* (development) 226-249.
- SEX CHARACTERS**, *Gambusia affinis holbrooki* (abnormal expression caused by paper mill effluents) 676-681.
- SEXUAL DIMORPHISM**, *Urolophus concentricus* 900-901.
- SKELETON**, genus *Acipenser* (pectoral girdle skeleton development) 226-249.
- SPATIAL RELATIONSHIPS**, *Sceloporus jarrovi* (in juvenile individuals) 141-146.
- SPAWNING**, *Fundulus heteroclitus* (ovarian changes during lunar spawning cycle) 118-125; *Apareiodon (piracacabae, ibitiensis)* 166-169; *Zaniolepis (latipinnis, frenata)* (seasonal cycle) 882-884; *Trachinotus carolinus* (spawning behavior) 884-886; *Menidia menidia* 886-887; *Alosa sapidissima* (movement, weight loss and length frequencies before and after spawning) 889-892.
- SURVIVAL**, *Oncorhynchus tshawytscha* (survival and cortisol concentration altered by sea water and confinement) 351-353.
- SWIMMING**, *Caretta caretta* (thermal influences on swimming speed) 773-780.
- SYNONYMY**, *Trigla africana* (junior synonym of *Chelidonichthys lastoviza*) 156-157; *Piabucina erythrinoides* (*P. pleurotaenia* a junior synonym) 335-340; *Liolaemus chacoensis* (*L. emmae* a junior synonym) 936-937.
- SYSTEMATICS**, genus *Anthias* (two new western Atlantic species and redescription of *A. asperlinguis*) and *Holanthias martinicensis* (review) 72-87;

Poromitra crassiceps (family Melamphaidae) (new western Pacific species) 87-93; *Ranidella bilingua* (new Australian species) 93-99; *Cottus girardi* (valid species) 158-159; *Congrogadus marginatus* (member of congrid eel genus *Ariosoma*) 159-160; *Salmo gairdneri* (meristic comparison of four stocks) 160-162; genus *Hypentelium* (genetics and protein electrophoresis) 280-290; *Anolis sericeus* 310-320; *Gila bicolor vaccaceps* (new subspecies) 320-322; *Notropis lirus* (review) 323-334; *Pia-bucina erythrinoides* (*P. pleurotaenia* a junior synonym) 335-340; genus *Macrogathus* (family Mastacembelidae) (revision) 385-391; *Eleuthero-dactylus quinquagesimus* (new species) 392-396; *Congrogadoides amplimaculatus*, *Halimuraena lepopareia* (family Congrogadidae) (new species) 396-402; *Bascanichthys* (*scuticaris*, *bascanium*) (review of genus in Gulf of Mexico) 402-408; *Allotoca maculata* (family Goodeidae) (new species; comments on *Allotoca dugesi*) 408-417; *Salmo gairdneri aquilarum* (electrophoretic, karyotypic and meristic characterization) 418-424; genus *Scaphiopus* (5 spp., 2 subgenera, 13 populations examined for 21 protein loci) 605-610; genus *Kentropyx* (relationships within genus; *Kentropyx vanzoi* described as new) 616-620; genus *Chromis* (review of the 7 eastern Pacific species, of which 3 are described as new) 626-641; *Blachea xenobranchialis* (new genus and species) 642-648; genus *Hypoplectrus* (enigmatic aspects of speciation) 649-679; *Hoplunnis pacifica* (additions to original description) 901-903; *Cobitis linea* (redescription, with remarks on subgenus *Bicanestrinia*) 903-906; *Acentrophryne longidens* (recent species identified from late Miocene) 906-908; *Anguilla* (*anguilla*, *rostrata*, *australis*) (cytotaxonomical inter-relationships) 911-913; *Liolaemus chacoensis* (*Liolaemus emmae* a junior synonym) 926-937; *Ambystoma tigrinum* (multiple species ?) 938-941.

TAXONOMY (see SYSTEMATICS).

TECHNIQUES, fishes (karyotype analysis using scale epithelium) 543-545.

TEMPERATURE, *Lepidosiren paradoxa* (thermal responses) 130-136; *Fundulus diaphanus* (preference in southwestern Pennsylvania) 346-349; *Bufo punctatus* (body temperature and activity)

362-363; *Chamaeleo* (*jacksoni*, *hohneli*) (desiccation tolerance and thermal maxima) 363-366; *Chrysemys s. scripta* (effect of water temperature on feeding ecology) 503-514; *Nerodia* (*rhombifera*, *cyclopion*, *fasciata*, *erythrogaster*), *Regina grahamii* (role of temperature on behavioral and ecological associations) 744-754; *Varanus gouldii* (thermal biology) 755-767; *Chelonia mydas* (body temperature and heat transfer) 767-773; *Caretta caretta* (thermal influences on swimming speed) 773-780; *Crotalus viridis* (overwintering thermal ecology) 799-805.

TERRITORIAL BEHAVIOR, *Sceloporus jarrovi* (spacing in juveniles) 141-146.

TERRITORIALITY, *Aneides aeneus* 463-468.

THERMAL PREFERENCES, *Chelydra serpentina* 149-152.

THERMAL RESPONSES, *Lepidosiren paradoxa* 130-136.

THERMOREGULATION, Australian elapid snakes (7 spp.) (behavioral thermoregulation) 452-458; *Lialis burtonis* (behavioral) 738-743.

TRAPPING, aquatic turtles (new methods) 368-371.

VERTEBRAE, *Plecoglossus altivelis* (incidence of vertebral anomalies in natural and hatchery-raised individuals) 29-35.

VIVIPARITY, *Poeciliopsis occidentalis* (energetics) 876-878.

VOCALIZATION, *Hyla cinerea* × *Hyla gratiosa* 577-584.

WATER BALANCE, *Nerodia* (*fasciata*, *sipedon*, *valida*) (relation of sodium and water balance to survival in sea water of estuarine and freshwater races) 268-280; *Bufo* (2 spp.), *Rana* (7 spp.), *Rhacophorus* (3 spp.) (all from Borneo) (water balance and nitrogen excretion) 446-451; *Sceloporus undulatus* (water relations of parchment-shelled eggs) 478-482; *Cyclorana platycephalus* (energy metabolism of dormant water-holding frogs) 787-799.

WATER LOSS, squamate reptiles (procedural and anatomical considerations for determination) 425-439.

WEIGHT, *Alosa sapidissima* (weight loss after spawning) 889-892.
